# ROUGE SARÂÛ

*A sweet, addictive and intense fragrance*

Rouge SarâÛ references ancient trade routes that spanned the arid deserts of the Arabian Peninsula. Wide spaces of poetic dreaming filled with romantic tales. Many French writers, poets and adventurers journeyed to the far reaches of the Middle East. Their intrepid travels still inhabit and enchant our memory.

Rouge (red) like the sand dunes of Wadi Rum caress by the setting sun. Rouge to signify the Temple of Petra's ochre colored rock. Rouge to highlight the passion, hospitality and warmth of the Middle East. Rouge like the amber color of the date, the fruit of the sands, and symbol of hospitality, wealth and abundance.

Long considered a potent symbol of abundance and hospitality, Rouge SarâÛ sublimates the date and its fruity and fleshy aromas. Intensity and conviviality are enhanced with temptingly sweet vanilla and heliotrope. A darkly romantic fragrance, Rouge SarâÛ is enveloped by sensual sandalwood. The smoky tonalities of guaiac wood magnify an ambered temperament.
